

EXPERT PROGRAM: ARCHITECTURE VISUALIZATION

280 Hours (Training + Practical)

7 Months

85,000

VISUALIZE WITH PRECISION

This program focuses on executing 3D Architectural views from various perspectives and lighting conditions. At the end, it enables you to create walkthroughs as per client requirements. It is a challenging process, where you develop new ideas to accomplish every project.

The program is designed to help all interior and exterior designers, architectural students and 3D visualizers to sharpen their skills and render photo realistic views. The complete design process will enable you to create the structure, which remains true to all creative, technical and aesthetic aspects.
