

EXPERT PROGRAM IN TEXTILE DESIGN (EPTD)

240 HOURS

6 MONTHS

The Expert Program in Textile Design is a creatively intensive and technically grounded course aimed at individuals passionate about designing fabrics and surface patterns for fashion, interiors, and lifestyle. This program explores the full spectrum of textile development—from traditional hand techniques to digital and sustainable practices. Students gain deep insight into fabric structures, surface embellishments, weaving, printing, dyeing, and textile innovation. With a strong blend of aesthetics and function, learners are trained to conceptualize, create, and produce original textiles for apparel, home décor, furnishings, and more. The program encourages experimentation, material exploration, and portfolio development that aligns with industry trends.

≡ INSIDE THE PROGRAM

- ✓ Fundamentals of Textile Design & Fabric Construction
- ✓ Weaving Techniques & Loom Processes
- ✓ Surface Ornamentation
- ✓ Textile Printing: Block, Screen, Digital
- ✓ Dyeing Techniques & Color Theory
- ✓ Textile Trend Forecasting & Market Research
- ✓ Sustainable & Smart Textiles
- ✓ Textile CAD & Repeat Pattern Design
- ✓ Portfolio Development & Industry Projects
- ✓ Fabric Sampling, Analysis & Technical Specifications

APPLICABLE JOBS

- Textile Designer
- Surface Pattern Designer
- Print Designer (Textiles/Apparel)
- Color & Material Specialist
- Sustainable Textile Consultant
- Trend Analyst (Textile Sector)

MODULES COVERED

AI INTEGRATED COURSE

- 1 Fundamentals Of Design & Fashion
- 2 Surface Ornamentation
- 3 Textile Study
- 4 Indian Traditional Textiles
- 5 Textile Dyeing & Printing
- 6 Textile Design Development
- 7 Digital Textile Printing

Assessment will be conducted through a written examinations, Practical examination. Students are also required to submit a Final Portfolio showcasing their work, which will be a key component of the overall evaluation.
